\*\*\* A new perspective - Internet Gambling - Legal or not? \*\*\*

Following my posting of the report by Michael G. Cohen, "Legality of Internet Gambling in the United States" (dated May, 2005), Mr Warren R. Markowitz from the Touro Law School (NY, USA), Class of 2005, contacted me.

He said "I am glad to see that someone other than me has taken the time to investigate and write about this issue...in case you would be interested in placing another perspective on the issue, I am enclosing my paper".

Warren has also compiled a very well-researched paper covering the issue of Internet Gambling within the United States. Completed in December 2004, it is titled "Internet Gambling - Legal or Not?" This also covers jurisdictions outside the US, land based gambling vs. online casino style gambling, a proposed regulatory framework, amongst other topics.

\*\*\* Online Poker Regulation \*\*\*

This is a media article released May 19, 2005, subtitled - Urgent Call by State Representative Jim Kasper (R-Fargo): Why Not North Dakota and Why Not Now?

Of how the Department of Justice interfered in the North Dakota legislative process to kill HB1509 and HCR 3035, the two bills that would have enacted legislation in that state to license and regulate the internet poker industry -created, promoted and sponsored by State Representative Jim Kasper from North Dakota- using misinformation and misleading quotes in an intimidation letter. Will the industry rise and call this bluff?

\*\*\* Openbet - Interactive Gambling System \*\*\*

Orbis Technology has a range of products to add to their offering. New products include Affiliate Manager, Betting-in- Running Plus, Proposition server and Running-up-Money engine. The Openbet system delivers a unique single solution to deploy sports, pool, fantasy, P2P, play on demand and scheduled numbers games. Clients include numerous high profile customers (in addition to start-ups), covering both the gaming and wagering sectors [http://www.openbet.com/home/about\\_orbis.htm](http://www.openbet.com/home/about_orbis.htm)

.  
They are exhibiting at GIGSE, Montreal stand 233, or can be contacted at <mailto:info@OrbisUK.com>
